

MORE NEUTRALITY VIOLATIONS. Three American Schooners, Java, Magnolia, and Independence have been seized by an English Cruiser, recently in the Bay of Fundy. The men of the different schrs. state for a fact, that they put into the harbor of *Tusket Island* to renew their stores of water, &c. &c. It accorded with British interests to suppose them there, for the purpose of violating the stipulations of the treaty existing between Great Britain and the U. States. Testimony was procured that they were fishing in the Harbor, *see how easily British Gold can procure sufficient proof to subserve their interests.* The *Boston Courier* recommends the sending an American Cruiser to protect our fishermen, while the boundary question is unsettled,—“for it is that probably, which has occasioned the present trouble.” The suggestion is a good one and should be acted on.

••• We call the attention of our readers to a communication in another column of the paper, respecting the propriety and justice of continuing in office the present Deputy Marshal Drury. For ourselves we have no hesitation in saying that an American citizen, holding a responsible and respectable office and discharging its duties in the manner detailed in *J. W. Grogan's* letter in No. 6 of this paper,—is entirely unworthy and unfit to hold it longer. The proceedings of the Convention lately held at Bakersfield which were published in the last No., as they have emanated from the political party, in whose ranks is found the person vested with authority to nominate a Deputy, are of the utmost importance, as they show that he has acted in this instance in violation of their feelings, nor indeed have we yet heard a single individual of either political party approve either of the nomination, or the conduct of the official.

Let the Marshall receive a lesson therefrom, and those connected with him to the “persecutions” (as they are very properly styled) for the arrests growing out of a violation of the Neutral Laws of the U. S. Let him hear the accusations of “folly and oppression which have characterized them,” and learn to appoint understrappers who will not draw upon him such public odium. Perhaps it may be impolitic and unnecessary here to mention the fact, although we have never disguised it, that we ever hold in sovereign contempt those political whittlers, who slide from one political party into another, and whose locality is ever changing according to circumstances; we moreover sincerely believe that the majority of the people entertain similar opinions. As Marshall Lowry is not a subscriber to this paper, we shall take the liberty to forward him this number gratis.

Another Traitor Rewarded.—Dominique Mondelet once a liberal member of the House of Assembly, afterwards a turn-coat for a seat in the Executive Council, lately Judge Advocate of Colborne's bloody Court Martial,—whose father was also a renegade in 1810, has recently been appointed by Colborne a Judge in the District of Three Rivers. We'll tell more of him in a future number.

The Quebec Canadian of the 17th inst., speaking of the recent arrests of Messrs. *Beausoleil* and *Neyemith*, says—“The suspected Canadians are singularly situated. Do they wish to leave the country, they are prevented; do they re-enter it, they are arrested and sent to jail.”

On every side is heard the “busy hum of preparation” for the celebration of the coming anniversary of our Independence. Right glad are we to hear it; the people should never allow this to pass without assembling to the exclusion of all party feeling, whether religious or political to pay a worthy tribute to the memory of the illustrious men who declared and successfully carried out the glorious and ennobling doctrines of *Independence* from trans-atlantic oppression. Let all, who glory in the name of a free-born American citizen be present.

The Card of the Committee of management will inform the public what preparations have been made. We doubt not that with pleasant weather, (which is indispensable,) and the cheering and enlivening presence of the ladies at the festal board, who last year did not participate in the festivities of the day—and to crown the whole, the fire-works of the evening will make the present a memorable celebration, such as will do honor to this village and be worthy of the occasion.

••• The festival of *St. Jean Baptiste* the titular Saint of the French Canadian, was celebrated in a very happy manner at the Eagle Tavern, by a few refugees, honored by the presence of some American Gentlemen. We defer to the next number, the publication of the regular and volunteer toasts, as our columns are too crowded this week.

••• An Attorney when Grogan was in custody at *North Island*, spoke in hearing of the guard, of applying to the Judge for a *Habeas Corpus*. One of the guard half dead with fright, cried out to his companions—“there'll be a terrible fuss to night, for I heard one of the Lawyers say he'd *corpe us!*”

Navy Island Expedition.—W. L. Mackenzie's trial for a violation of the Neutrality law of the U. S., in setting on foot and preparing the means for an expedition against the dominions of Queen Victoria, &c. &c., came on at Canandaigua, N. Y. on the 19th inst. The indictment is a very long one, having 17 counts and has already been published in his Gazette. Mr. Mackenzie has already been twice in Albany, N. Y. prepared for trial, and at the time and place appointed by the State authorities, it has however been delayed to this late period, very much to the pecuniary loss of this gentleman. We have not now any news from that quarter, but shall probably have the result for the next No. We wish him a safe deliverance from his unpleasant position.

••• We should also like to send him some subscribers. Any in this vicinity wishing his truly valuable journal would confer a favor by leaving their names at the office of this paper, where specimen numbers may be seen.

The *Montreal Ami du Peuple*, a violent French Tory print in noticing the remarks of the American journals upon the persons present at Queen Victoria's Ball, finds among them Prince John Van Buren. They did not before hear of the “Van Buren dynasty.”

ONSIVE.—One of those circumstances, which seldom occur more than once or twice a year in a village has just transpired. Some of the merchants have returned with their New Goods, and as chroniclers of passing and important events we have felt bound to mention the fact. The ladies will now call, so will the gentlemen—the purchase will be satisfied and in the general gratification the publisher will join, as his numerous patrons will expect to see their advertisements in the paper. Call in upon Messrs. Van Duzee & Co., who have been the first to set the example.—May it be followed by others, and we hear our subscribers cry Amen.

••• See Advertisement.

MEANNESS.—The persecution, prosecution and distraining of an honest poor man, who has seen his family reduced from comfortable and even affluent circumstances, by the bloodhounds of despotism and turned homeless among strangers for an honest zeal and devotion to the principles of our Revolutionary fathers. We know such a man, and moreover know the wretch, who disgraces the name of an American, by the guilt of such paltry conduct. Let *meanness* be branded upon his forehead as Cain of old, for a far less immoral act, that *Patriot* may shun the *walking pestilence*.

Through an oversight, the following notice was not inserted in the last No. we regret it as the time is so near at hand, and it is our intention to abide strictly by the present proposals.

••• TO OUR SUBSCRIBERS.—Persons who are receiving the NORTH AMERICAN shall have it for \$1.50, providing they pay that sum free of expense to us, on or before the 4th of July next. We want to keep square with our paper-maker, and it takes CASH to do that.

••• New Agents for this paper.—Friend Vail of Montpelier, recommends the following gentlemen as agents for the North American, viz: Barre, Vt., Capt. Lewis Lucas; Waitsfield, Geo. D. Rice; Northfield, John E. McClure; Roxbury, John M. Spalding; Middlesex, Horace Snow, P. M.; Calais, Dr. Asa George; Moretown, R. G. Buckley.

••• Mr. ALEXANDER DROLET of Swanton, is Mr. Ludger Duvernay's Agent for the receipt and delivery of the Hon. L. J. Papineau's History of the Canadian Insurrection. It will probably be in 3 or 4 parts, the first part is already published and may be seen by calling upon him.

HORRIBLE.—The body of a newly born infant was found on Tuesday morning, in a garden in Montreal, belonging to Mr. Watt, with a plaster on its mouth. Every exertion was made to find out the inhuman monster who committed the atrocious murder.

It is cheaper to educate the infant mind, than to support the aged criminal.

“CONCERT AND ORGANIZATION” should be the watch word of the friends of Canadian Liberty in this country. The time will come, and probably come soon, when we can act efficiently and all our aid will be wanted. Let us have no more work like that at Prescott and Sandwich. Blood must be spilt—but let it be to better purpose.

There is a feeling now, which if not organized, directed and controlled, will be constantly breaking out into useless attempts, and result in disastrous failures.

Let that feeling be kept up, for it is the fire of Liberty which burned so brightly on our altars in '76, but let it be concentrated, and directed, so that when it flashes forth again, it may accomplish its object.

Buffalo Mercury.

The St. John (N. B.) Chronicle has the following:

“We see nothing to prevent the total annihilation, by Great Britain, of the United States.”

Query? If it took the United States with only three millions of inhabitants, but eight years to flog Great Britain, how long would it take them to do it with sixteen millions?

To the Militia and friends of a well organized and efficient Militia in the New England States, and the State of New York.

GENTLEMEN.—The Military Convention, which assembled at Norwich Vt., on the 4th of July 1838, stands adjourned to meet at that place on the 4th of July 1839, at 10 o'clock, A. M. It is hoped that all the friends of an efficient and well organized Militia—which is the only Constitutional defence of our liberties and independence—will attend this Convention, and express their sentiments on this important subject, in language not to be misunderstood. Let every patriot realize the fact, that if the Militia be not sustained, the destinies of the country will ere long be controlled by a standing army, and military despotism be the ultimate result. This is no party political question, but constitutes neutral ground, on which honest and patriotic men of all parties can meet, and consult together for the public good.

Her husband was an inmate of Victoria's dungeon in the fall of '37 & '38, his confinement and suffering there operating, upon a slender constitution have been the means of hastening her dissolution.—Ed.

A New Theory!

INTERESTING AND APPLICABLE TO THE AFFLICTED WITH DISEASES OF

The Stomach, or Nerves;

Such as *DYSPEPSIA*, either Chronic or Casual, under the worst symptoms of restlessness; *Lowness of Spirits*, and General Emaciation; *CONSUMPTION*, whether of the Lungs or Liver; *LIVER AFFECTIONS*; *JAUNDICE*, both Biliary & Spasmodic; *COSTIVENESS*; *WORMS* of every variety; *RHEUMATISM*, whether acute or chronic; together with *GOUT*, *SCROFULA*; *Pains in the head, back, limbs and side*, *TYPHUS FEVER*, *SCARLET FEVER*, *Putrid Sore Throat*, *FEVER & AGUE*, *Spasmodic Palpitation of the Heart & Arteries*, *Nervous Irritability*, *Nervous Weakness*, *Hysterics*, *Tic Douloureux*, *cramps*, *Female Obstructions*, *Heartburn*, *Headache*, *Cough*, the common or humid, & the Dry or the Whooping; *ASTHMA*, *Gravel* and *Dropsy*.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health, and vigor emanate, and, *vice versa*, pain, sickness disease and death. Not so with Dr. HUNT (whose extensive research and practical experience so eminent ly qualify him for the profession of which he has been one of the most useful members. He contends—and a moment's reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver and the associated organs are the primary and great regulators of health; and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anodynes usually prescribed, serve but as foils to cover the ravages of deep-rooted maladies.—Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing it, it is with a knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not pretend to ascribe to a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up,

HUNT'S BOTANIC PILLS

have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for long and anxious study to attain this perfection in the HEALING ART.

Highly Important!

Nervous diseases, liver complaint, dyspepsia, bilious diseases, piles, rheumatism, consumption, coughs, colds, spitting of blood, pain in the chest and side, ulcers, female weakness, all delicate and mercurial diseases are successfully treated at Dr. EVANS' Medical Office, 100 Chatham street New York.

Dr. EVANS'

Camomile & Aperient Pills.

ON LOW SPIRITS.—Low spirits is a certain state of the mind, accompanied by indigestion wherein the greatest evils are apprehended upon the slightest ground, and the worst consequences imagined. Ancient Medical writers supposed this disease to be confined to those particular regions of the abdomen, technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

SYMPTOMS.

The common corporal symptoms are, flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains, giddiness, dimness of sight, palpitations, and often an utter inability of fixing the attention upon any subject of importance, or engaging in any thing that demands vigor or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy, and dejected, accompanied with a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

CAUSES.

A sedentary life of any kind, especially severe study protracted to a late hour in the night, and rarely relieved by social intercourse, or exercise, a dissolute habit, great excess in eating and drinking, the immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as, the obstruction of the menses,) or long continued eruptions; relaxation or debility of one or more important organs within the abdomen, is a frequent cause.

TREATMENT.

The principal objects of treatment are, to remove indigestion, to strengthen the body and to enliven the spirits, which may be promoted by exercise, early hours, regular meals, and pleasant conversation. The bowels (if costive) being carefully regulated by the occasional use of a mild aperient. We know nothing better calculated to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti-spasmodic,) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; as in many cases it will greatly aggravate the symptoms.
